SIGNALIZATION SOLUTIONS

KONE KDS D

KONE Design signalization for passenger elevators

KONE Design signalization adds the finishing touches to your elevator by allowing you to match the car operating panel (COP) and landing signalization with the overall car design. The wide variety of color options and patterns available make it easy to create an elevator that reflects the look and feel of your building. Choose from our award-winning standard range and add a splash of color.

KONE Design signalization includes:

- COPs with sleek metallic frames
- Frameless numerical floor displays
- A wide choice of colors and patterns
- Landing devices and signalization in matching colors
- User-friendly, accessible design

KONE provides innovative and eco-efficient solutions for elevators, escalators and automatic building doors. We support our customers every step of the way; from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE MonoSpace®, KONE MaxiSpace™, and KONE InnoTrack™. You can experience these innovations in architectural landmarks such as Capital City in Moscow, Hongqiao Transport Hub in Shanghai, North LaSalle in Chicago and Tour First in Paris. KONE employs on average 35,000 dedicated experts to serve you globally and locally in over 50 countries.
